About Me

Full stack developer on a mission to solve problems creatively with technology. Informed by 10+ years of design-driven project management. Passionate about elegant system design UX, data science, data visualization, immersive installations, IoT and embedded systems. Four plus years agency experience ranging from NYC startups to nation-wide corporations.

Stack

Java	Git
Spring	**Javascript**
Hibernate/H2	React.js
Python	**d3.js**
Django	HTML/CSS
PHP	**Agile/Scrum**
REST API	SQL
RaspberryPi	**Linux Bash**

Recent Projects

Lumens Web App
Python, Django, Twilio API, JavaScript

Created a customized video-consultation application for interior design. The app ties to mobile devices for a consultation then sends recommended products directly.

Random Access Cards
Java, Spring, Javascript, Git

With a team of 4 other remote developers, we created a game-like study tool. Developed as a single page application with Java providing a REST API and Javascript rendering the front end.

Achievements

Achieved aggregate of $1,500,000 in grand funding from the EPA

Collaborated, developed and launched enterprise-grade web app "Lumens"

Produced and managed broadcast TV ads for global commercial brands.

Education

BA **Urban Revitalization**
Indiana Univeristy 2013
GPA 3.45

Cert. **Software Development**
We Can Code IT 2020

Industry Experience

Business Dev Manager | Cleanlites Recycling Inc
Sep 2013 - Dec 2019

- Achieved $1.5 Million in grant funding as project lead for the grant-writing team.
- Delivered earnings growth 20% YoY through research-driven aquisitions and strategy.
- Spearheaded, organized and executed nation-wide corporate re-branding.

Founder & CEO | Nightingale Media
Oct 2017 - Present

- Earned and retained clients through beating deadlines and exceeding expectations.
- Used technical & design skills to develop and communicate brand messaging.
- Solely managed 4-6 corporate clients while rolling out deadline-contingent projects.

Production Intern | Antfood Studios NYC
May 2017 - Nov 2017

- Designed, coded and developed interactive audio installations as a team member.
- Edited and composed nationally syndicated ads for global brands and clients.
- Managed and coordinated entire project life-cycles from kickoff to shipment.

Marketing Associate | Complex Ventures NYC
Sep 2017 - May 2019

- Advised, consulted and developed better branding and UX for e-commerce clients.
- Managed complete marketing strategies for B2C clients and national brands.
- Created and produced the From Day One Podcast, covering startups in Brooklyn, NY.
